REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims as supported by the specification differs from the prior art in that it does not teach i) a laser irradiation apparatus in which the first optical unit initially receives the coherent beam from the light source, and the first optical unit is disposed such that a starting point of the pointing vector of the coherent beam from the light source and an exit face on the second optical unit are mutually conjugated with respect to the first optical unit or ii) a laser irradiation apparatus including a first optical unit disposed in an optical path between a light source and a target workpiece to initially receive a coherent beam from the light source, wherein the first optical unit focuses the coherent beam between the first optical unit and a second optical unit, and a focus point of the second optical unit and an exit face on the third optical unit are mutually conjugated with respect to the second optical unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Alexandra Elve whose telephone number is 571-272-1173. The examiner can normally be reached on 6:30-3:00 Monday to Friday.
